GreenLumen recognizes the need to look beyond the current use of inefficient incandescent lights or environmentally unfriendly CFLs to solid-state, mercury-free LEDs that keep our environment safe, significantly reduce energy consumption, and offer greater flexibility as an application light.

By continually tapping on the latest LED light technology and working closely with creative designers, architects and LED manufacturers, we are able to offer our customers creative and practical advice to achieve optimal state-of-the-art LED solutions and light products.

In GreenLumen we place a great deal of emphasis on product design to ensure our LED lights perform effectively.

Besides high-powered LED lights we also created many kinds of RGB lights for that special occasions, events or needs. These mood-lights are mainly customized lights with varying designs, limited only by customers' imagination.

Our one-of-a kind mood-lights are safe and easy to operate. They are mainly IP rated and are remote-controlled.
